A Virtual Information Session

2021 Summer Research Experiences for Teachers Program

**Saturday February 27, 2021**
10:30a.m.-12:30p.m. (eastern standard time)

**Who Should Attend?**
High School Teachers- Science/Technology Technical/Community College Faculty within commuting distance of Georgia Tech

**Registration:**
https://forms.gle/dEJaNcZJtSo3JELaA

**Raffle Giveaway of Classroom STEAM Kits!**
Drawings will be held throughout the session for those in attendance

**Participating RET sites:**
Northwestern University, Georgia Institute of Technology, University of Minnesota & University of Nebraska–Lincoln

Come join us as we give you a preview of this exciting program. The two-hour session includes an overview of nanotechnology, remote tool session, a talk on careers in nanotechnology, and information on some of the research projects.

The United States will have to fill 3.5 million STEM jobs by 2025, according to the The National Association of Manufacturing and Deloitte. The National Nanotechnology Coordinated Infrastructure (NNCI) will be offering educators the opportunity to experience the excitement of nanotechnology research and to share this experience in their classrooms and with their peers by applying to do paid research at one of our four sites this summer.
